

RUPAK GUPTA

Full Stack Developer • 7+ Years Experience

rupakgupta265@gmail.com | +91-8382875958 | Azamgarh, UP | LinkedIn: linkedin.com/in/rupak-gupta-397262157 | GitHub: github.com/rgupta265

PROFESSIONAL SUMMARY

Enterprise Full Stack Developer with 7+ years shipping production SaaS across construction, HVAC, e-commerce, and HR tech — cutting API response times 20–30%, integrating 3 payment gateways, and supporting 10K+ users on multi-tenant platforms. Proficient in Laravel, PHP, React.js, Next.js, and Vue.js; deep expertise in RESTful APIs, OAuth2/SAML2 SSO, and third-party integrations (Stripe, Razorpay, Microsoft Graph). Actively leverages AI-augmented tools (Cursor AI, Claude Code, GitHub Copilot, Gemini) to accelerate delivery and improve code quality.

CORE TECHNICAL SKILLS

Frontend: React.js, Vue.js (Vue 2/3), Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, jQuery, Bootstrap, Tailwind CSS, Material UI
React.js: React Hooks, React Router, JSX, Context API, Redux Toolkit, Reusable Components, React SPA, Webpack, Vite, SSR, SSG
Vue.js: Vuex, Pinia, Vue Router, BootstrapVue, Vue CLI, Vue SPA, Virtual DOM, Reactivity System, Composition API, Options API, Vite, Vue Test Utils
Backend: PHP, Laravel (6/8/12), CodeIgniter, Node.js, Sequelize, REST/SOAP APIs, MVC Architecture
DB & Cloud: MySQL, PostgreSQL, MS SQL Server, Firebase, AWS S3
Integrations: Stripe, Razorpay, Authorize.net, Microsoft Graph, Dropbox, Sage Intacct
Auth/Tools: OAuth2, SAML2 SSO, Google 2FA, Laravel Passport/Sanctum, Spatie RBAC, Redis, Linux, PHPUnit, Git, VS Code, PhpStorm
AI Tools: Cursor AI, Claude Code, GitHub Copilot, Gemini, OpenAI Codex

WORK EXPERIENCE

Software Engineer (Full Stack) Jul 2022 – Present

Galaxy Weblinks Ltd | Tech: Laravel, Vue.js, Next.js, Sequelize, React.js

- Spearheaded 5+ enterprise modules (Pronovos, PlanningForProfit) end-to-end; mentored 1 junior developer; slashed API response times ~20–30% via Eloquent query tuning, Redis caching, and Laravel Queues; architected OAuth2/SAML2 SSO, Google 2FA, and Spatie RBAC for iOS/Android multi-tenant platform supporting 10K+ users.
- Integrated 3 payment gateways (Stripe, Razorpay, Authorize.net) and 4+ third-party services (AWS S3, Dropbox, Microsoft Graph, Sage Intacct) via REST/SOAP APIs; championed AI-augmented development (Cursor AI, Claude Code, GitHub Copilot, Gemini) to cut debugging cycles and accelerate delivery across 3+ concurrent projects.

Software Engineer (PHP / Full Stack) Dec 2018 – Jun 2022

Prakhar Softwares Solutions Pvt. Ltd | Tech: PHP, Laravel, Vue.js, jQuery, WordPress, CodeIgniter

- Engineered full-stack Naukriyan.com job portal (e-governance + corporate recruitment) with role-specific panels for Admin, Employer, and Job Seeker using PHP, Laravel, CodeIgniter, Vue.js, and WordPress across 3+ client projects.
- Designed and launched BecilJobs.com for BECIL (Laravel + Vue.js) — admin panel, job listing management, and end-to-end candidate application flow.
- Resolved production issues, shipped feature enhancements, and completed a 3-month School Management System (Core PHP, MySQL) — applying MVC architecture and relational database design skills.

KEY PROJECTS

1. PlanningForProfit [Vue.js / Laravel]

URL: <https://app.planningforprofit.com/login>

Tech: Laravel 8, Vue 2, MySQL, Stripe, wkhtmltopdf, Vuex, BootstrapVue, Gemini CLI, Codex

Company: Galaxy Weblinks Ltd

HVAC/home comfort platform for job pricing, gross margin management, and full sales proposal lifecycle.

- Engineered end-to-end proposal lifecycle from creation and multi-tier pricing (Good/Better/Best) to PDF generation, email delivery, and digital e-signature flow with OTP verification.
- Architected a RESTful API layer (10+ endpoints) and Vue SPA frontend with full CRUD, status tracking (Draft → Sent → Viewed → Accepted/Signed/Rejected), audit history, auto-sequential Proposal ID system, and 4 transactional email workflows; leveraged Gemini CLI and Claude Code to debug complex pricing logic.

2. Construction Intelligence Cloud (Pronovos) [PHP / Laravel / Bootstrap]

URL: <https://app.pronovos.com/login>

Tech: PHP 8.3, Laravel 12, MySQL, MS SQL Server, Eloquent ORM, Laravel Passport/Sanctum (OAuth2/SAML2 SSO), Google 2FA, Spatie Permissions, Laravel Queues, AWS S3, Stripe, Bootstrap, Microsoft Graph/Outlook, Dropbox, Cursor AI, Claude Code

Company: Galaxy Weblinks Ltd

Cloud-based construction platform for financial tracking, change order management, RFIs, estimating, and facilities management.

- Delivered end-to-end Facilities Management module: work order lifecycle (create/assign/track/close), trade company management, vendor/client quote workflows with auto-numbering, PDF export, photo attachments, and email logging.

- Developed Change Order Request (COR) module with full CRUD, line items, labor/material cost components, inline editing, tax calculations, revision history, and master settings for markup and cost category configuration.
- Implemented PDF generation and email delivery for work orders and CORs with detailed line item views, attachment handling, and complete audit trails; launched Execute Change Orders module to consolidate approved CORs with filtering, cost/contract update logic, and PDF reporting; used Cursor AI and Claude Code to automate code generation and accelerate enterprise feature delivery.

3. Resai – AI Resume Builder [React.js / Next.js]

URL: <https://resai.co/en/home> (Landing) | <https://app.resai.co/> (App)

Tech: React.js, Tailwind CSS, Next.js, Material UI, Python, PostgreSQL, Razorpay

Company: Galaxy Weblinks Ltd

AI-powered resume builder with credit-based Razorpay downloads; supports English and Hindi.

- Crafted the front-end UI using Next.js and Material UI; implemented responsive design for desktop and mobile; integrated language toggle for English/Hindi.
- Constructed public-facing landing page using React.js and Tailwind CSS with Signup flow redirecting to the Next.js app; developed reusable React.js components (hero, template gallery, pricing/CTA); implemented client-side routing for smooth cross-app handoff.
- Assisted in integrating Razorpay payment gateway; optimized website performance for fast loading and smooth interactions.

4. Hall Constructor – Ticketing System [Vue.js / Laravel]

URL: <https://hallticketing.com/account/login>

Tech: Laravel, Vue.js, Bootstrap, MySQL

Company: Galaxy Weblinks Ltd

Web application for Hall Contractors to manage daily ticket punching and track work activities across user roles.

- Developed user-friendly role-specific panels for Broker, Foreman, Vendor, and Administrator.
- Maintained backend Admin section and resolved day-to-day technical issues; applied Git branching strategy (feature branches, environments) to manage team collaboration; implemented structural and UI changes per expert recommendations.

5. 24HourDigitizing – Embroidery E-Commerce [Next.js / TypeScript]

URL: <https://www.24hourdigitizing.com/>

Tech: Next.js, Sequelize, TypeScript, Authorize.net, Bootstrap, MySQL

Company: Galaxy Weblinks Ltd

Embroidery-based e-commerce platform for digitizing/vector orders with 3 user types (Customer, Vendor, Admin) and Authorize.net subscription plans.

- Developed role-specific panels for Customer, Vendor, and Admin; integrated Authorize.net payment gateway for plan subscriptions and order processing.
- Administered backend Admin section, resolved day-to-day technical issues, and maintained Git-based project management with branch strategies for the development team.

6. Naukriyan.com – Job Portal [Laravel / Vue.js]

URL: [Naukriyan.com](https://naukriyan.com)

Tech: Laravel, Vue.js, MySQL

Company: Prakhar Softwares Solutions Pvt. Ltd

New-age job portal connecting employers and job seekers across e-governance and corporate sectors; offers video resume services.

- Established a user-friendly admin panel for platform management; resolved day-to-day technical issues; handled technical support and platform maintenance.
- Constructed 3 role-specific account types — Employer, Job Seeker, and Consultant — each with dedicated dashboards; Employers post and manage jobs, Candidates browse and apply, Consultants access the portal with commission-based model per successful placement.
- Implemented advanced hiring workflow: customizable questionnaires per job listing, multi-step apply flow, and consultant commission tracking — enabling end-to-end recruitment lifecycle management.

EDUCATION & CERTIFICATIONS

MCA — FGIET College, Raebareli 2018 | 76.85%

BCA — MCMT College, Varanasi 2016 | 67%

12th — CBSE Board 2011 | 54.4%

10th — CBSE Board 2009 | 62.4%

AI Fundamentals — Google (Coursera)

Professional Training: 3-month School Management System (Core PHP, MySQL); internal training in Android, Firebase, and SQL.
